- Processing industry events & services
- Environment & Pollution
- Water industry
- Process control & management
- Process plant & equipment
- Industry sectors
- Flow measurement

With a library of more than 25,000 articles from more than 2,500 companies, we are the number one destination for people making purchasing decisions!

Our mission is simple: to match buyers with sellers!

We'll present your information in a format that's easy for people to understand and digest, and offer a number of ways for buyers to get in touch with you.

People come to us for the latest product information and process industry news, and we make it easy for them to find the information that they want.

By providing us with your information you're ensuring that your message gets in front of the right people, at the right time!

You can benefit from one or all of our advertising packages. They're flexible and totally transparent – you can see exactly what you're getting, and tailor the response to meet your needs.

We're here to help generate the response that you're looking for.

} Banners, video & pictures .

BANNERS

Advertising slots are a high-visibility way to reinforce your brand values, tell people about product launches, and generate a good click through rate to your company website.

Taking advantage of banner advertising also allows you to add your company logo prominently on the front page of our website, putting your company in front of a vast number of people in the process industry.

VIDEO

SHOWCASE: Really easy to put together, presenting you with a high quality slideshow presentation style video. All you need to do is simply provide approximately 15 images and a 100 word script. The script is then read over by a professional voice over artist and the audio is cleverly edited with music and your copy to create a compelling 1 minute video.

DIY: You are provided with an easy to use filming kit. Full instructions, tips and examples are all included, with the final footage professionally edited down to a 2-3 minute video and made available for you to add to your own website, newsletters and emails.

PROFESSIONAL: Includes a cameraman travelling to a location of your choice in the UK for 1/2 a day to do all the filming for you and your business. This is followed up by professional editing to a 2-3 minute video, with input from you. The final approved video is then made available for your website, newsletters and emails. Prices available on request.

EZstrip reduces maintenance and downtime

PICTURES

Attaching a colour image to your story will enhance your published message, and reinforce your brand. This is a great way to illustrate the functions of your product/service and improve your presence on Processingtalk.

} Newsletters & Lead generation.

NEWSLETTERS

The [Processingtalk](#) newsletter is a great way to get your message direct to the inbox of more than **14,000** people.

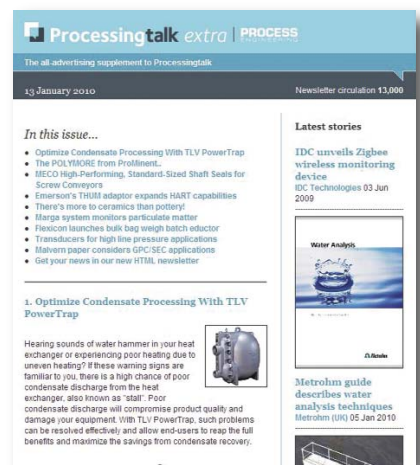

Whether it's a product launch, exhibition, or a special offer, our fully subscriber audience is who you want to engage to get instant results.

Each newsletter consists of approximately 10 stories with the option to include a colour image and a URL link, directing traffic to your chosen website - this could be the full story on www.processingtalk.com, your company website or a data caption page.

Over 80% of our readership make or influence purchasing decisions so you can be sure you're getting in front of the right people!

Our premium newsletter slots are a fantastic, cost-effective way to both raise your profile and generate response. Newsletter sponsorship is also available.

Once a month the newsletter has a headline theme - to find out more about the themes email admin@pro-talk.com.

LEAD GENERATION

To get the most out of people who are reading your articles, you need to know who they are. You need to catch people at the point of interest and influence their purchasing decision.

We make it easy for buyers to contact you. By giving them a easily accessible path to find out more about your products, we can generate a steady stream of interest throughout the year.

We'll work with you to generate response from the material you already have, including technical documentation, brochures and other marketing collateral. We can even write it for you - we recognise you don't always have time, so you can engage our professional team of editors to produce your articles for you.

Professional marketing is about engaging the right people at the right time, and the Lead Generation Service helps you do exactly that!
